NRG+ GROUP

NRG+ is a vertically integrated group specialized in **renewable energy project development and execution**, with a strong presence in both **European and Latin American markets**.

We operate across the entire value chain through two brands:

- **NRG+** for **permitting** and **development**
- **Renergeia** a dedicated subsidiary, handles engineering, procurement, and construction **(EPC)**, as well as operations and maintenance **(O&M)** services.

+ 6 countries

in 2 continents

+ 2.5 GW

of projects under development

+ 1.4 GW

of projects already sold to clients

+ 100

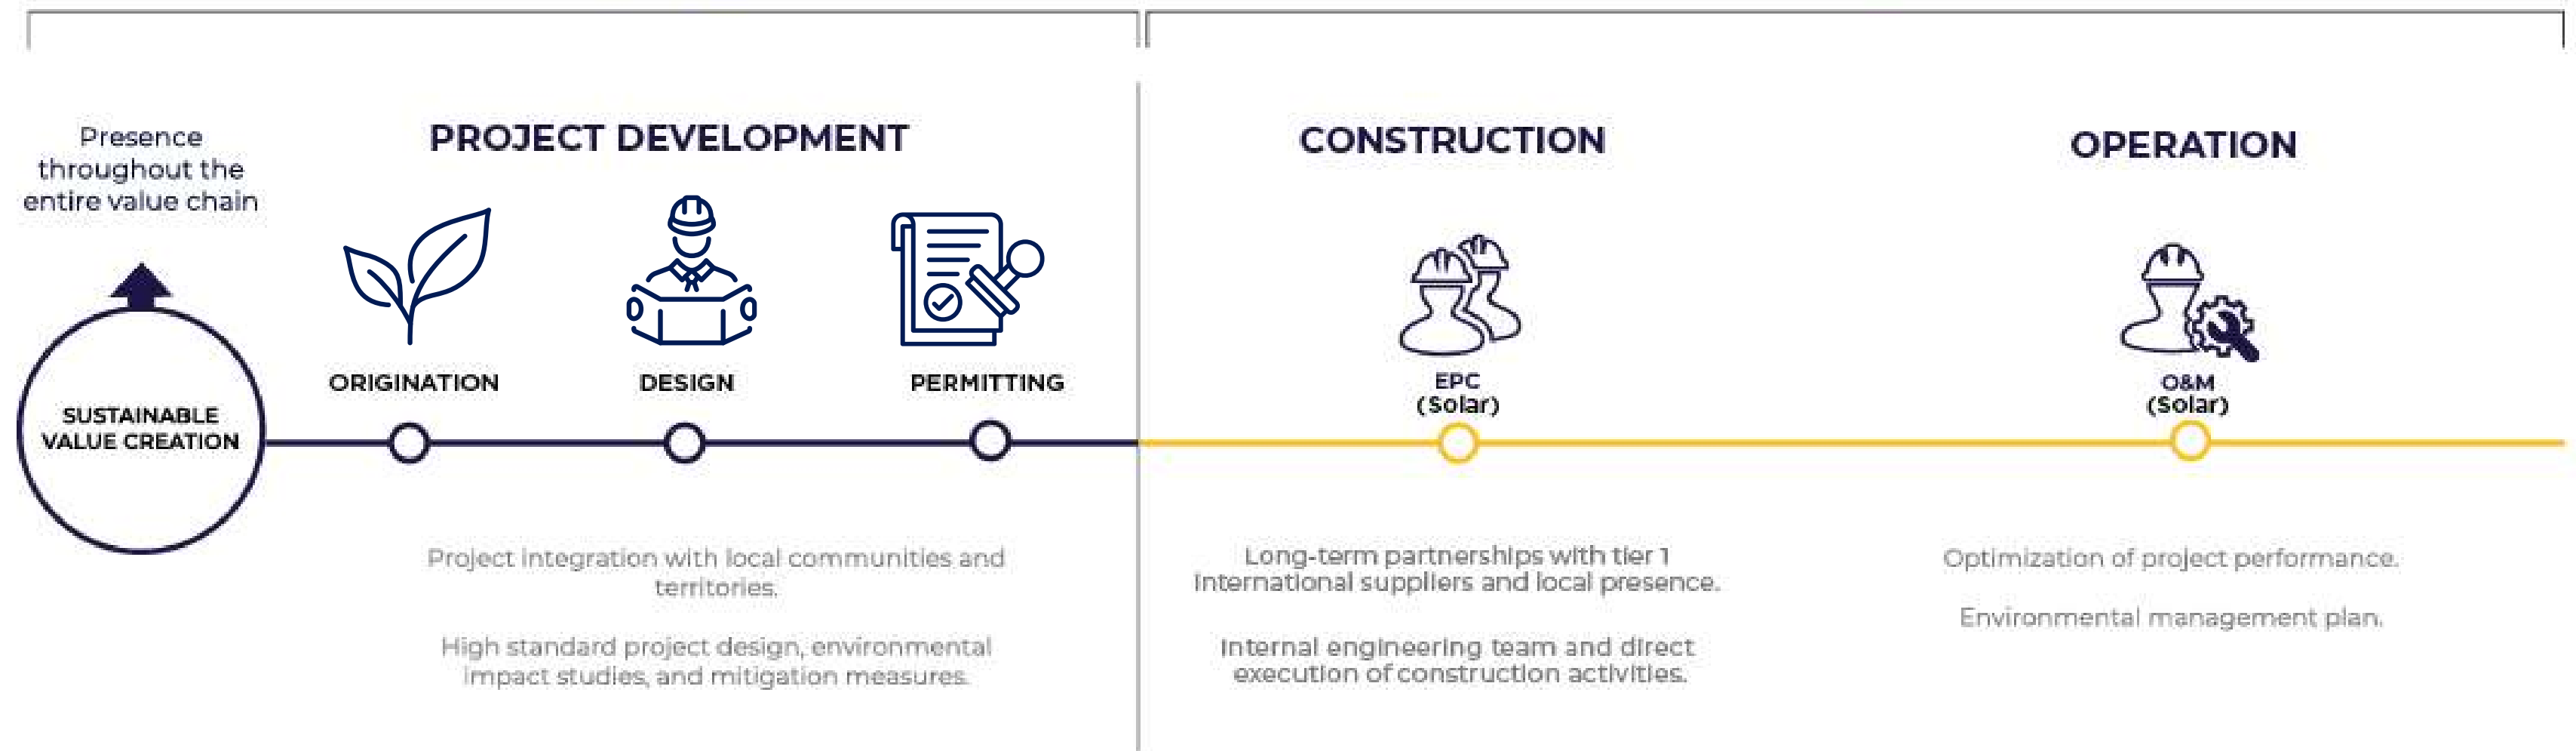

employees worldwide

Our Business Model

The entire value chain is managed internally, from identifying opportunities to obtaining permits, construction, and the start of operations.

NRG

NRG

Our Commitment

Committed to increasing the access to affordable, reliable, sustainable, and modern energy.

Committed to promote inclusive and sustainable economic growth, employment and decent work for all

Committed to make cities and human settlements inclusive, safe, resilient and sustainable.

Committed to take urgent action to combat climate change and its impacts.

SUSTAINABLE DEVELOPMENT GOALS

Project Development Process

Greenfield

Origination

- Land Scouting
- Environmental Screening
- Legal Screening
- Commercial Negotiation
- Contract Execution
- STMG Request

Design

- Definitive Design Plant
- Connection
- Environmental Studies
- Connection Contract Execution
- Plant and Connection design
- Environmental analysis

Permitting

- Permits and Licenses Filing
- Follow up Permitting Process
- Integrations
- Permits Obtainment

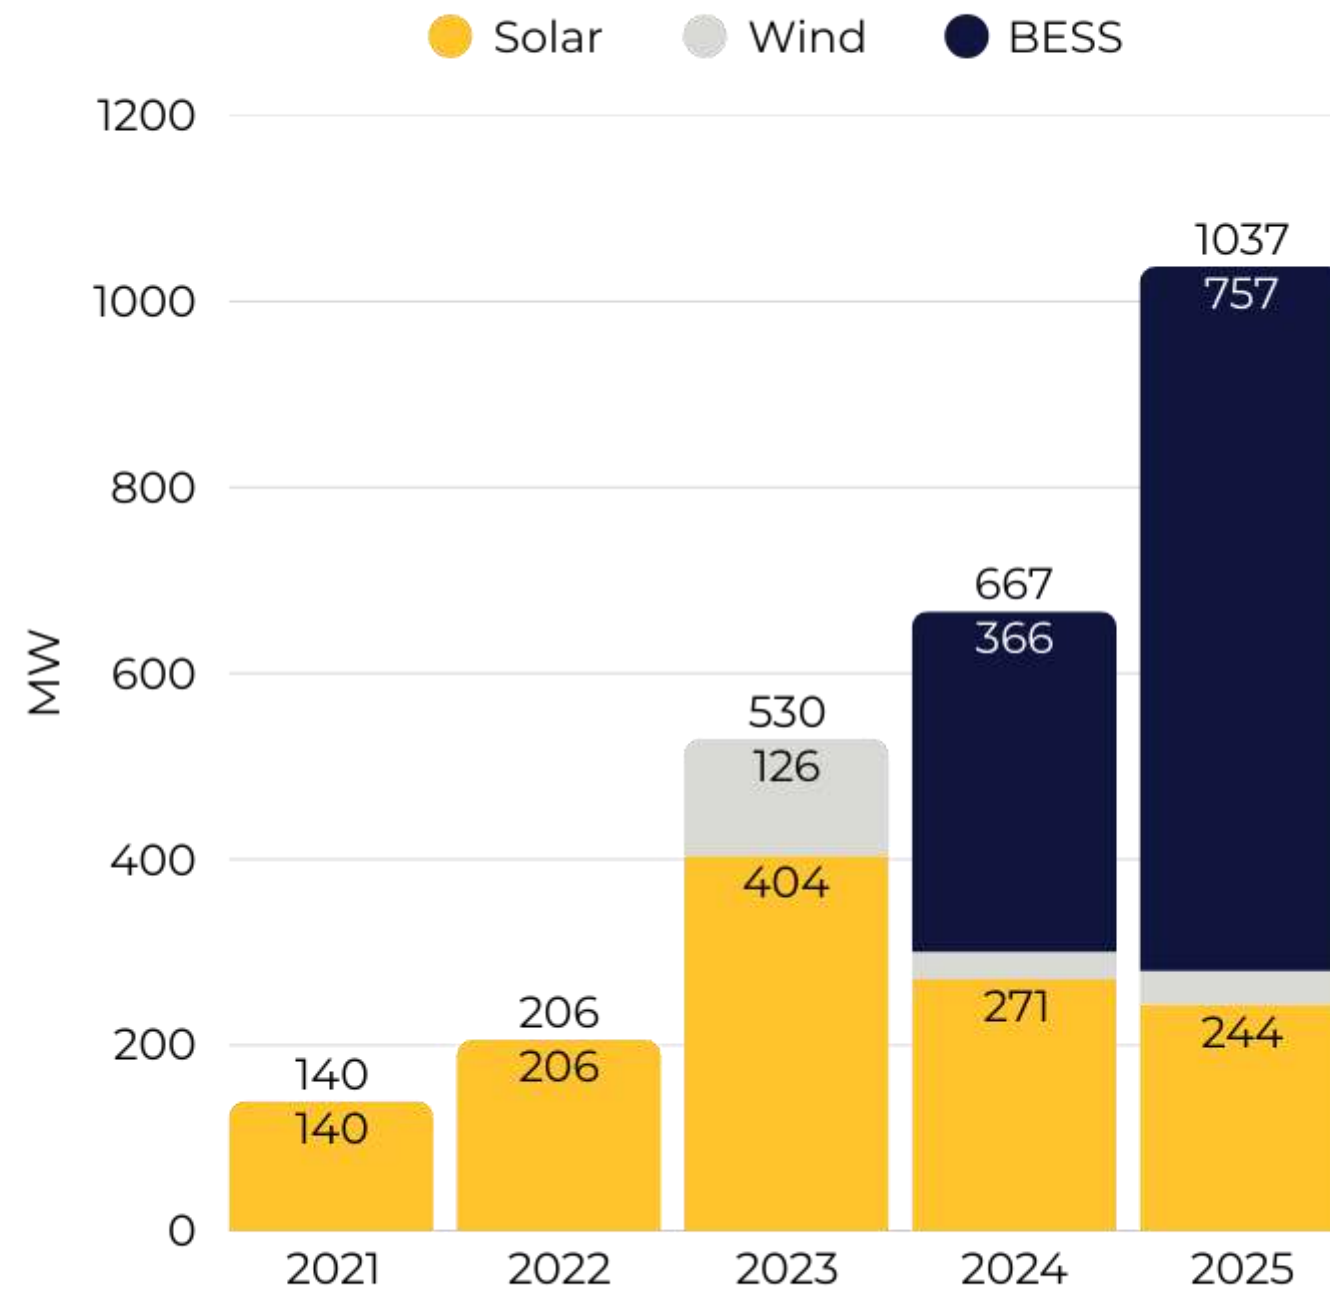

RTB

Projects Under Development

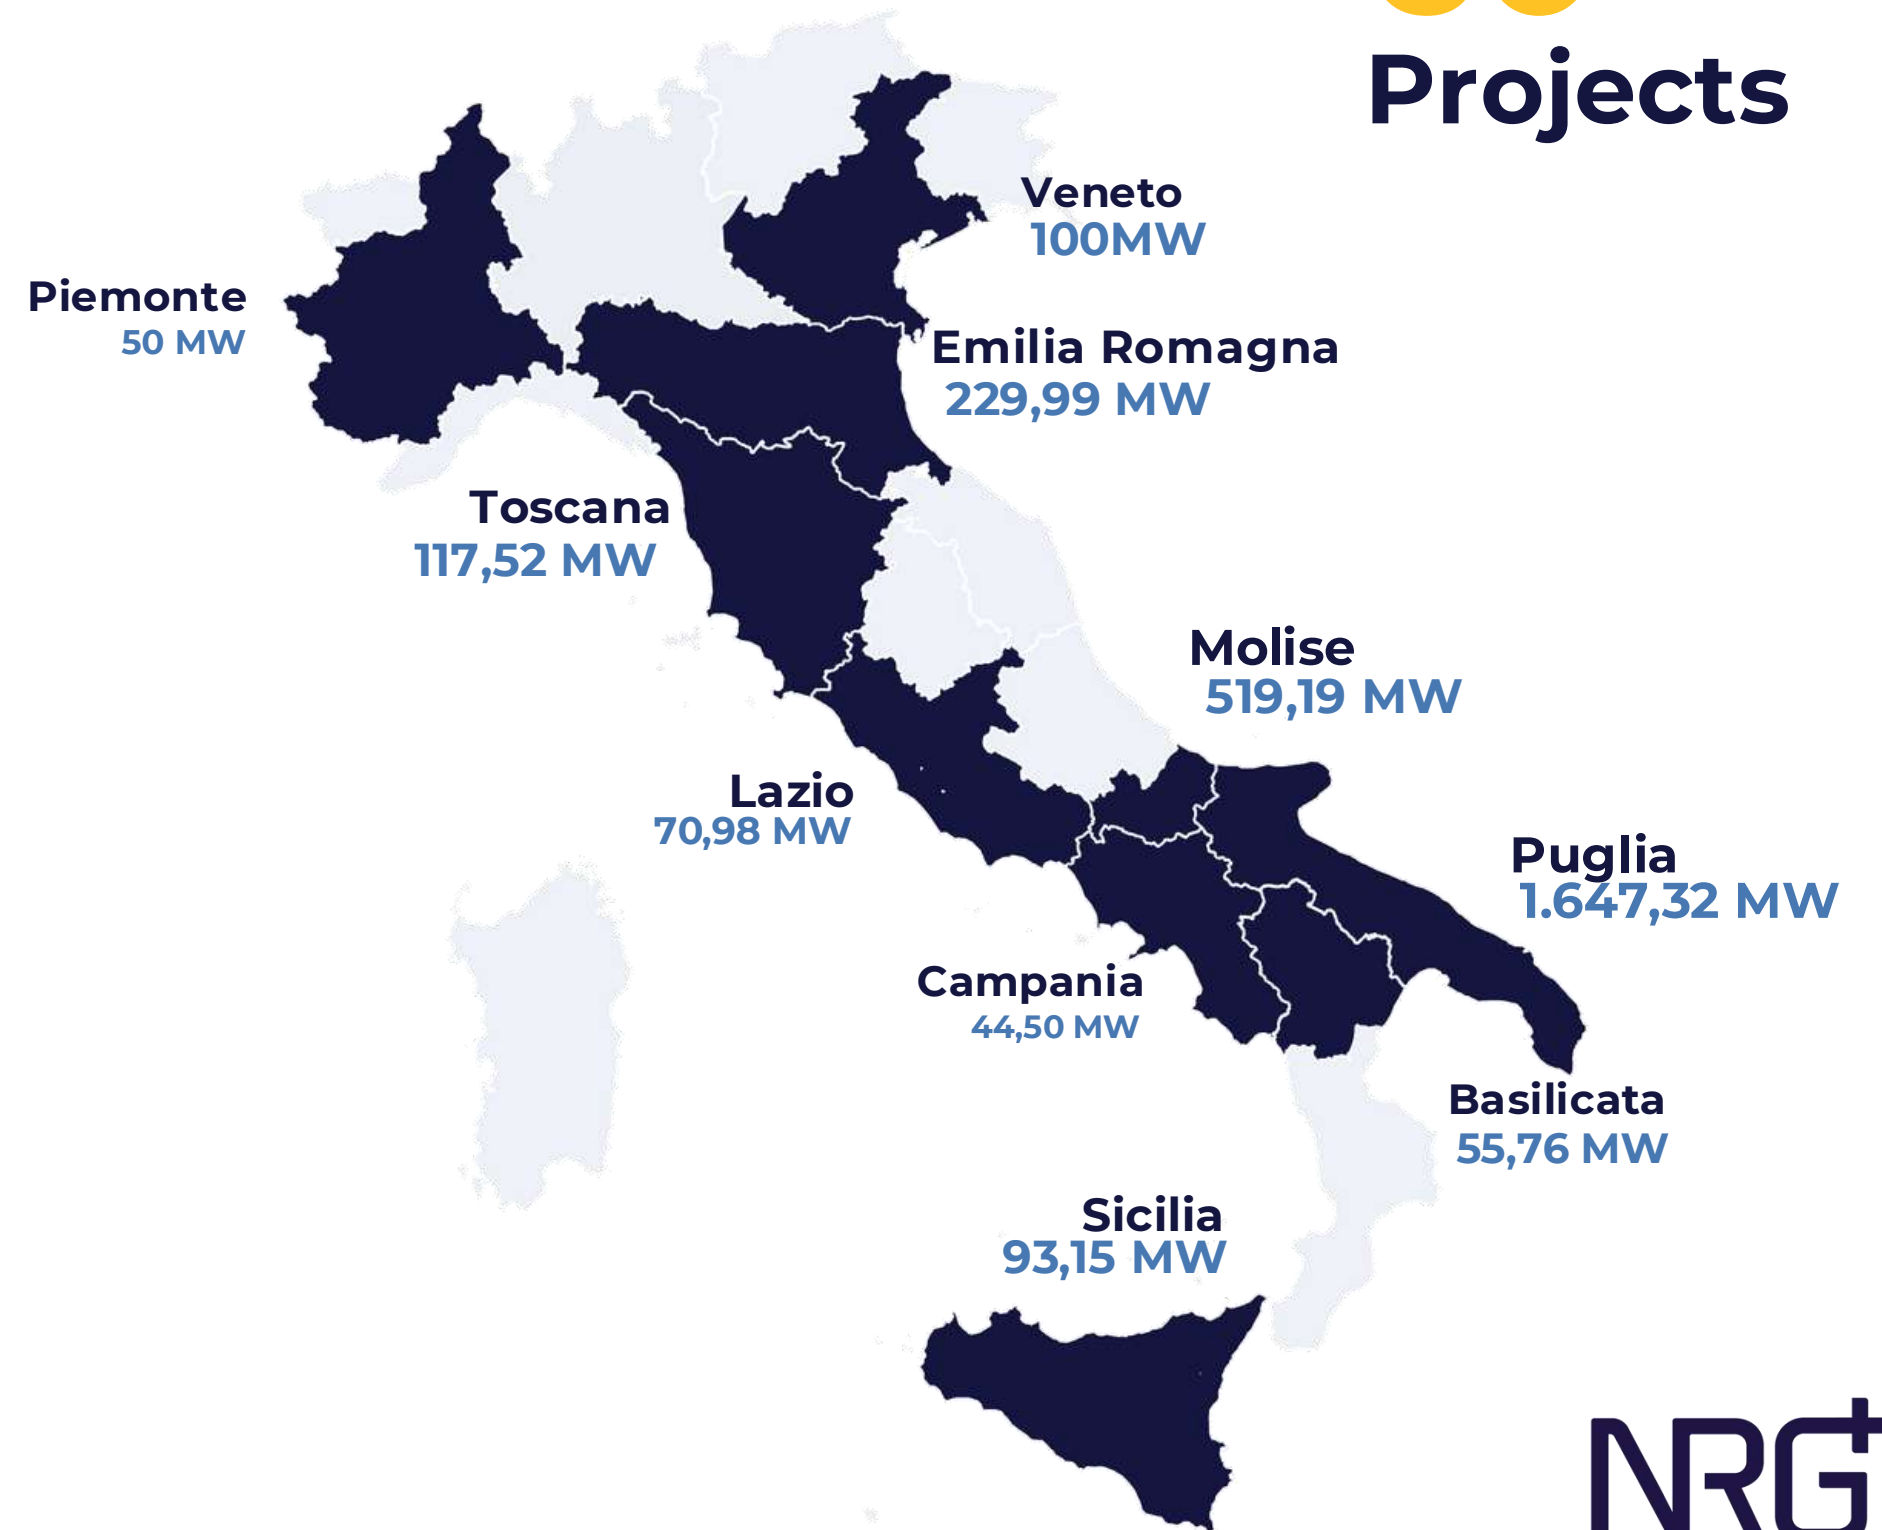

Focus Italy

+ 2.5 GW

Additional projects by year and source

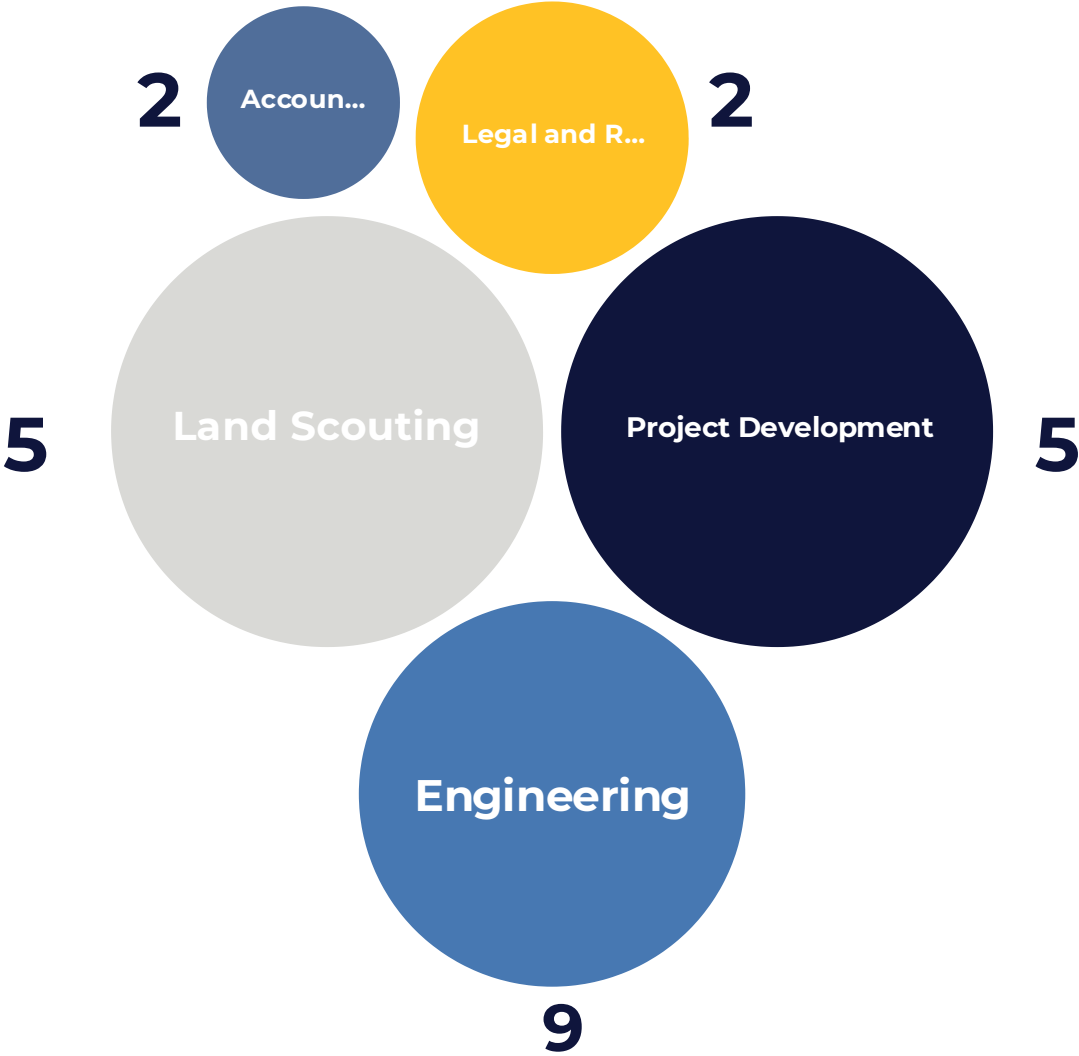

Total: **60**
Projects

NRG

Project Development Team

Multidiciplinary team involved in the development of our
projects pipeline

Development is led entirely by our internal team of
engineers, permitting experts, legal and financial
professionals — minimizing outsourcing and
maximizing control over time and quality

NRG

Design, EPC & O&M for Utility-Scale Solar

Renergeia is the technical branch of the NRG+ Group, dedicated exclusively to utility-scale solar projects, providing comprehensive EPC solution – **from initial design to long-term operation**.

We specialize in **design, full EPC** (Engineering, Procurement & Construction), and **O&M (Operation & Maintenance)**, ensuring that every solar plant is built and operated to the highest standards of performance and reliability.

With deep experience in **large-scale solar construction**, we guarantee technical excellence, on-time delivery, and cost efficiency.

Active in **four countries across Latin America and Europe**, **Renergeia** combines local execution with global quality to accelerate the deployment of clean energy.
